LONDON FIGHTING SHY OF AMERICAN STOCKS

STRIKE DRIVING BUSINESS TO OTHER COMPANIES.

Granger Stocks and Pacifics Place on the Market in Large Lots by Chicago Interests.

REPUBLIC SPECIAL. New York, Aug. 2.-American stocks to the London market were irregular and the trading had a holiday character. Price were irregular and upon the whole los ground after showing early moderate asols rather heavy, though not quotably wer. Money was rather easier in the Eu ropean centers and there was a healthy

tone on the bourse. After a dull but steady opening, the local market sold off on renewed pressure from Chicago in the granger stocks an Pacifics. The decline brought out a good deal of scattering long stock from tires

Sugar had a sharp decline on reports that the new competition would be a seriou factor in trade conditions and rumors of a factor in trade conditions and rumors of a change in the management. From the sell-ing, however, there were reasons for believ-ing that a good deal of manipulation was going on, and that insiders would not be unwilling to acquire a little cheap stock before the dividend declaration next Sep-tember.

tember.

The corn crop reports are bad and if some of the pessimistic utterances are to be believed a condition is shown worse than 1894. Until the Government report is issued on the 19th inst, there will be a good deal of wild guessing, but it is difficult to believe that the crop can be so bad as the short interest in Chicago makes out.

Helping Independent Companies.

The steel strike position is where it was

Helping Independent Companies.

The steel strike position is where it was before the abortive conference of Saturday, but the week's developments indicate that the men are anything but of one mind. The steel company has not conceded anything, and by all accounts will not do so, so that it is merely a question of time when the men are forced to give in. The effect of the strike is seen in the way orders are going to the independent steel companies, and, like the engineers' strike in Great Britain, it may result in driving business to other

The weakness in Rock Island is an indi-cation that after a certain point the strong-est kind of control cannot keep the price up and yet make a good market. There is practically no short interest, and conse-quently comparatively small sales of long-stock cause declines. The same result is lottleable in Missouri Pacific, but the pool about there is stronger. There is no truth whatever in the story of a merger of Min-nesota and St. Louis and lowa Central pre-paratory to sale of the two roads to Illinois Central.

The close was in most cases above low-

Central.

The close was in most cases above lowest, helped by covering of traders, shorts and good buyers in the steel stocks. The market had a very profressional tone, and after the early stop orders had been caught in the grangers and Pacifics, the absence of further outside selling caused traders to cover shorts. Money continues easy at 2 to 2% per cent.

11.1 10.4 11.6 11.3 1.3 VERY DULL MARKET FOR LOCAL SECURITIES.

TWEEN FOR STOCKS.

Market Without a Redeeming Feature-Prices Weak and Lower All Round.

One of the worst markets in a trading way that has been witnessed in the local security market since the late spell of dullness set in early the present week, was experienced yesterday. It was actually without a single redeeming feature. Bro-kers were poorly supplied with orders, and they did not overexert themselves to execute them, small as they were, the result of which was that trading was insig-nificantly small, the day's dealings amount-Foreign Exchange.

Foreign exchange was in light temand and the market opened weak, but closed a triffe steader. B. R. Penedick, Bro. & Co., report closing rates a follows:

Prime sterling cables 4.8% 48.8%; checks 4.8% 60 days 4.8%; 60 days 5.1%; 60 day

More interest was taken in the market for trust stocks than anything else in the security line, but not enough to bring about sales. Mercantile, old and new, met with a quiet demand, the former at \$32.55, and the inter at \$30.75 respectively. New Lincoln was 's points higher at \$256.25 bid, but old was unchanged at \$235 bid and \$237 asked. Title and Guaranty was up 's point to \$153.56 bid and \$155 asked, but Commonwealth was that much lower at \$257, and \$253 bid and asked.

Bank stocks throughout the entire session were dull, weak and lower, and therefore attracted but little attention from brokers who seemed to be without orders of any kind. There was no change in the market for National Bank of Commerce, which was saiable at \$23.20, and held at \$25.0 Continental National, on the other hand, was ½ point of at \$23 bid and \$29 asked, and Third National was ½ points lower at \$250 bid and none offered.

A demand was had for \$100 Brewery bonds, which are generally known as "Baby" Brewerys, and \$103 was bid, and \$103.50 asked. Westinghouse Automatic Coupler was also in demand, and 20 shares sold 1½ points higher for the day at \$22.20, which was bid for more.

	which was bid for more.

LOCAL MONEY MARKET.

Another Active Day Reported—Demand for Money Growing.

Another all-round good day was experienced yesterday, and banks and trust companies were kept busily employed hroughout the day. The depositing and checking against them was active and quite heavy. The demand for money which is said to be growing, was active and well distributed, and rates of interest were steady and unchanged at 5 to 7 per cent for call and time loans. There was a large amount of money available, and loans were made easily. Business with country banks was encouragingly satisfactory.

Good bank clearings were again reported year.

i	terday, they amounting to \$7,335,986, while the

PRESENT FOR MR. COMPTON.

Retiring Chief Grain Inspector Surprised by His Friends.

George E. Compton, the retiring Chief Grain Inspector of the Illinois State Grain Inspection Department at St. Louis and East St. Louis, who was forced to retire to Chicago on account of Ill-health, was the recipient yesterday of a gold chain and diamond-set medal, the gift of the members of the Merchants' Exchange.

Mr. Compton was called into the directors' room of the exchange about 12 o'clock, where a number of grain men were waiting to receive him. Roger P. Annan presented the chain and charm to Mr. Compton, who thanked the donors.

Specches were made by Otto Teichmann, Gilbert Sears and others.

The medal is a large solid gold affair, with a diamond in the center. On one side is the inscription, "Presented to George E. Compton by his friends of the Merchants' Exchange of St. Louis, August 1, 1991." On the other side was engraved: "In appreciation of the high sense of integrity with which you have performed your duties as Chief Grain Inspector at East St. Louis." Mr. Compton will depart for his home in Chicago to-day, and will be succeeded by St. Alexander as Chief Inspector.

NEW GERMAN CONSUL ARRIVES. Dr. F. C. Bieloff Is Familiarizing

Himself With His Duties.

Doctor F. C. Bieloff, successor to Carl F. Fromann as German Consul to St. Louis, relieved Acting Consul Haering at the conday morning, and made a thorough inspec-tion of the methods in vogue here, familiar-ising himself with the work to be done in

tion of the methods in vogue here, familiarizing himself with the work to be done in this city.

His appointment to this city dates back to last February, when he was stationed in Manila. He made many acquaintances among the United States officers there, and was well acquainted with Consul Wildman, whom he met at Hong-Kong. Doctor Bloloff speaks English fluently.

He has been in the consular service of his country for several years, is first post being in London, where he remained for six years, later being transferred to Hong-Kong. A year ago he was sent to Mania and while there received the appointment to this city. Illness prevented his coming immediately to St. Louis, but a short stay in Egypt restored his health. He expresses himself as pleased with St. Louis and said that he had pleasant anticipations of his work in this city.
